WED MAY 27

	09:00	10:00	10:15	10:30	11:00	11:30	12:00	12:30	12:45	13:00	13:30	14:00	14:15	14:30	15:00	15:15	15:30	15:45	16:00	16:15	16:30	17:00	17:15	17:30	17:45	18:00
OCEAN 1 HALL						2026 Surviving Sepsis Campaign guidelines								Treatable-trait ARDS and personalized ventilation							Non-invasive support 2.0				
OCEAN 2 HALL		*Connect Session* - The ICU hack Topic: Hemodynamics				*Connect Session* - Science stories: conversations with leading scientists ...								*Connect Session* - Room 101 ... Topic: Lung & brain crosstalk							*Connect Session* - Debate What makes a good scientist		*Connect Session* - Room 101 ... Topic: Acid-base		
OCEAN 4 HALL		*Tutorials* - Infections and sepsis: understanding before treating				*Tutorials* - Ultrasound in the ICU: from images to decisions								*Tutorials* - Anesthesia: managing complexity in real life							*Tutorials* - Renal failure and renal replacement therapy in the ICU				
AQUA 3 HALL		Coagulopathies in the ICU: from bleeding to thrombosis				PICU								Pediatric anesthesia: physiology and techniques							Advanced topics in pediatric anesthesia				
AQUA 4 HALL		Thoracic anesthesia and perioperative protection				Physiological effects of ECMO								Brain under pressure: from numbers to physiology							Donation after circulatory death (DCD): science to ethics				
SKY 1 HALL	Opening Session	Rescue and escalation in ARDS: don't miss the window				Advanced echocardiography in non-cardiac critical care				*Lunch Session* Extracorporeal organ support in critical care				Acid–base: novel thoughts on core concepts							Enhanced recovery after cardiac surgery				
AIRWAY SPACE						*Airway Academy*										*Airway Academy*										
SEPSIS SPACE		*Sepsis Academy* - Identification of patients and microorganisms						*Sepsis Academy* Antibiotic therapy			*Sepsis Academy* Cardiovascular management			*Focus On* - Angiotensin II in my next patient ...			*Sepsis Academy* Adjunctive therapies			*Focus On* - IgM preparation in sepsis: how to use ...				
ECMO SPACE			*ECMO Academy* Patient selection & physiology				*ECMO Academy* - ECMO initiation & early management				*ECMO Academy* Complications & troubleshooting				*ECMO Academy* Weaning, recovery & innovation										
FORUM						*Simulation Session* DRAEGER				*Workshop* SEDA				*Technical Forum* FISHER & PAYKEL HEALTHCARE					*Simulation Session* JOHNSON&JOHNSON					
HIGH FIDELITY SIMULATION CENTER				*Champions League SMART 2026* Semi-Final 1			*Champions League SMART 2026* Semi-Final 2							*High Fidelity Simulation Session 1* Every breath you take: advances in MV							*High Fidelity Simulation Session 2* Burning down the system...				

THU MAY 28

	09:00	09:30	10:00	10:15	10:30	11:00	11:30	11:45	12:00	12:30	12:45	13:00	13:30	14:00	14:15	14:30	15:00	15:15	15:30	15:45	16:00	16:15	16:30	16:45	17:45	18:00
OCEAN 1 HALL		Modern hemodynamics: from monitoring to intelligent intervention					Sedation, sleep & consciousness in the Neuro-ICU					*Lunch Session* Gas therapeutics				Pneumonia management in 2026								*Debate* Monitoring in shock: is less really more?		
OCEAN 2 HALL		*Connect Session* - Science stories: conversations with leading scientists ...		*Connect Session* - Debate. Connecting minds in the age of overload			*Connect Session* - Debate. Critical thinking: Bayesan beliefs vs...									*Connect Session* - Room 101 ... Topic: Lung		*Connect Session* - The ICU hack Topic: Immunocompromised pt.						*Connect Session* - Shark tank: pitch your research idea and gain support from a shark		
OCEAN 3 HALL			*SMART NURSING* What's new for caring of ICU patients				*SMART NURSING* - Vascular catheter management in 2025									*SMART NURSING* Lecture		*SMART NURSING* - *Round Table* It's not only driving pressure that makes ...								
OCEAN 4 HALL		*Tutorials* - Ventilatory support: from non-invasive to invasive rescue					*Tutorials* - Beyond opioids and BMI: contemporary approaches to ...									*Tutorials* - Monitoring the critically ill patient								*Tutorials* - Daily ICU practice beyond technology		
AQUA 3 HALL			Rethinking ventilation: hidden factors, open questions				Recent findings on high flow applications									Prehabilitation for high-risk surgical patients								Brain–body crossroads: systemic physiology as neuroprotection		
AQUA 4 HALL		Safety in anesthesia and procedural sedation					Clinical appropriateness of anesthesia depth and sedation monitoring ...									Extracorporeal support in ARDS: start, run and stop								Pulmonary embolism shock pathway: IR, RV rescue and ECMO		
SKY 1 HALL		Challenges in acute respiratory failure					Identifying AKI early: biomarkers to bedside									Cardiogenic shock: from system failure to mechanical support								Right heart failure and VA-ECMO: integrated physiology and management		
AIRWAY SPACE							*Airway Academy*											*Airway Academy*								
SEPSIS SPACE			*Sepsis Academy* - Identification of patients and microorganisms			*Focus On* - Procalcitonin and pro-adrenomedullin in ...				*Sepsis Academy* Antibiotic therapy			*Sepsis Academy* Cardiovascular management			*Focus On* - Angiotensin II in my next patient ...			*Sepsis Academy* Adjunctive therapies			*Focus On* - How to use Polymyxin B ...		
ECMO SPACE				*ECMO Academy* Patient selection & physiology				*ECMO Academy* - ECMO initiation & early management					*ECMO Academy* Complications & troubleshooting					*ECMO Academy* Weaning, recovery & innovation								
FORUM		*Technical Forum* WERFEN				*Technical Forum* B BRAUN				*Technical Forum* MASIMO				*Tavola Rotonda* BAXTER						*Meet the Expert* VANTIVE					
HIGH FIDELITY SIMULATION CENTER			*Champions League SMART 2026* Final				*High Fidelity Simulation Session 3* Still standing: MOF & shock in sepsis									*High Fidelity Simulation Session 4* - Staying alive: the soundtrack of neurological care								*High Fidelity Simulation Session 5* The final countdown: coagulation & hemostasis		

FRI MAY 29

	09:00	09:30	10:00	10:15	10:45	11:00	11:30	12:00	12:30	12:45	13:00	13:30	14:00	14:15	14:30	15:00	15:15	15:45	16:00	16:15	16:30
OCEAN 1 HALL		The lung–diaphragm–brain axis					Resuscitation guidelines 2025: what's new?								Beyond survival: transplant, recovery and the future of organ support						
OCEAN 2 HALL		Perioperative cardiac care: from high-risk anesthesia to recovery					Managing AKI: timing modality and trials								ECMO: advanced management beyond cannulation						
OCEAN 3 HALL			*SMART NURSING* Pediatric session				*SMART NURSING* Unexpected gifts of ICU admission														
OCEAN 4 HALL		*Tutorials* Acid-base and electrolytes: making sense of numbers					*Tutorials* - Neurocritical care: monitoring and prognosis								*Tutorials* ARDS: when conventional management is not enough						
AQUA 3 HALL		Global surgery, anesthesia, and critical care					Global surgery, anesthesia, and critical care								*Interactive Session* - Ongoing trials in cardiac arrest: pathophysiology and evidence to improve outcome						
AQUA 4 HALL		The future of resuscitation: evidence and ongoing trials					AI, closed-loop systems and waveform physiology								*Investigator Meeting* - Studio PREVENTION						
SKY 1 HALL		Airway management in 2026... not just a matter of tube!					Vasoactive therapy in sepsis: early and more than one?				*Lunch Session* - Vasopressor therapy in shock: pathophysiology-guided and patient-tailored strategies				Sepsis beyond the first hour						
AIRWAY SPACE							*Airway Academy*														
SEPSIS SPACE			*Sepsis Academy* - Identification of patients and microorganisms						*Sepsis Academy* Antibiotic therapy			*Sepsis Academy* Cardiovascular management						*Sepsis Academy* Adjunctive therapies			
ECMO SPACE				*ECMO Academy* Patient selection & physiology				*ECMO Academy* - ECMO initiation & early management				*ECMO Academy* Complications & troubleshooting				*ECMO Academy* Weaning, recovery & innovation					
FORUM							*Technical Forum* DRAEGER				*Simulation Session* SIDAM & SEDA										
HIGH FIDELITY SIMULATION CENTER			*High Fidelity Simulation Session 6* Small patients, big stakes ...				*High Fidelity Simulation Session 7* A nightmare in the operating theatre								*High Fidelity Simulation Session 8* The "prolonged" field care						

PROGRAM AT A GLANCE
37° SMART
