

Theoretical-Practical Course

# **EAMS Teach the Airway Teacher (TAT)**

**17 April 2024**

## Theoretical-Practical Course

# **EAMS Teach the Airway Teacher (TAT)**

Course Director: **G. Cortese** (Italy) | Max 12 participants

Airway management is one of the core competencies in anaesthesiology, critical care, and emergency medicine. Airway management skills cannot be taught just through books or lectures. Airway managers mostly teach technical and non-technical skills in the busy clinical environment of a hospital, often without a formal teaching program. EAMS, unique in between airway societies, created the Teach the Airway Teacher course (TAT course) aiming at these experienced teaching clinicians to foster airway training on a modern didactic background. The EAMS TAT course follows modern didactic principles. The flipped classroom concept includes a pre-course e-learning section, providing time for preparation and acquisition of theoretical knowledge. On site learning will happen due to practice, discussion, rehearsal, and collegial exchange in small groups and plenary discussions. To achieve the EAMS Airway Teacher certificate, the participants have to fulfill a post-course assignment in order to transfer the learning baggage into their teaching practice and foster long term effect of the course. Residents and paramedics might be accepted depending on their engagement to airway management (please provide CV to the course director).

## **Faculty**

**A. Andreotti** (*Modena*)

**S. Ceci** (*Turin*)

**G. Cortese** (*Turin*)

**R. Greif** (*Bern*)

## On-Line Part

The online pre-course (e-learning video and papers) is mandatory for the on-site part

### Course language

Plenary session: English/Italian  
Small groups: English/Italian

## On-site Part

09.00 **Registration**

09.15 **Welcome TAT**

Sociogram, participants' expectations & learning objectives (results from 1<sup>st</sup> questionnaire)

*All faculty*

09.30 **Session 1**

How to organize Airway Management (AM) teaching?

*All faculty + small groups*

10.45 **Session 2**

Fishbowl - pre-course prepared questions

1. Which competences needs an airway teacher?
2. How to teach AM skills?
3. How to teach non-technical skills in AM?

*All faculty and participants*

11.45 **Session 3**

Pre-recorded AM teaching video debriefing

*All faculty + small groups*

13.00 LUNCH

13.45 **Session 4**

Micro-teaching session on simulated AM teaching

*All faculty + small groups*

15.00 **Session 5**

Introduction to clinical debriefing – TALK

*All faculty and participants*

16.15 **Final session, 2nd questionnaire, post course committments**

*All faculty and participants*

16.30 **Course closure**

## Meeting venue

**AOU Città della Salute e della Scienza  
Presidio Molinette.**

**Palazzina Ciocatto (3° piano)**

Dipartimento di Anestesia, Rianimazione  
ed Emergenza.

Corso Dogliotti, 14 - 10126 Torino (I)

Accesso pedonale da Corso Bramante 88

## Organizing Secretariat
