4TH INTERNATIONAL PERIOPERATIVE TEE SYMPOSIUM

NIGUARDA HOSPITAL

OBJECTIVES

This 2-day symposium is designed to benefit practicing anesthesiologists, intensivists, cardiac surgeons and cardiologists involved in the perioperative management of surgical patients. The symposium program will include the use of advanced 2D and 3D TEE techniques in the assessment and management of patients presenting for cardiac surgery.

The participants will have the opportunity to learn through lectures and through interactive "Problem-Based Learning Discussion (PBLDs) groups, with a unique opportunity to discuss topics with the experts in small groups.

REGISTRATION INFORMATION:

Admission is limited to a restricted number of participants, with mandatory pre-registration. Detailed information will be provided shortly at www.niguardaperioptee.com

LEARN FROM THE EXPERTS.

A unique interactive symposium showcasing the state of the art in intraoperative TEE imaging modalities. The symposium is tailored for anyone involved in the perioperative care of cardiac surgical patients.

MAIN TOPICS:

- Advanced 2D and 3D TEE applications
- TEE simulator
- WET LAB Heart Dissection

OFFICIAL LANGUAGE: ENGLISH
